About Power Service GmbH:

Company: Power Service GmbH

Formation Date: January 2000

Location: Rödermark (close to Frankfurt) / Hong Kong

Power Service GmbH provides verified Services such as Sales & Marketing, Assembling, Helpdesk, Repair, Swap, Logistic & Warehousing to bring Asian Hardware Manufactures into the German market.

On the other Hand we establish trade relationships for our German Customers. We offer new channels of distribution therefore German Customers are in the position to achieve the best purchase price without unnecessary expenses. German Customers are able to trade directly with our Asian Manufactures. A whole trade level is eliminated due to our concept!

Our Service is called Coordination Office and is designed to bring the Asian and the German market closer together. Therefore both Parties are able to benefit mutually.

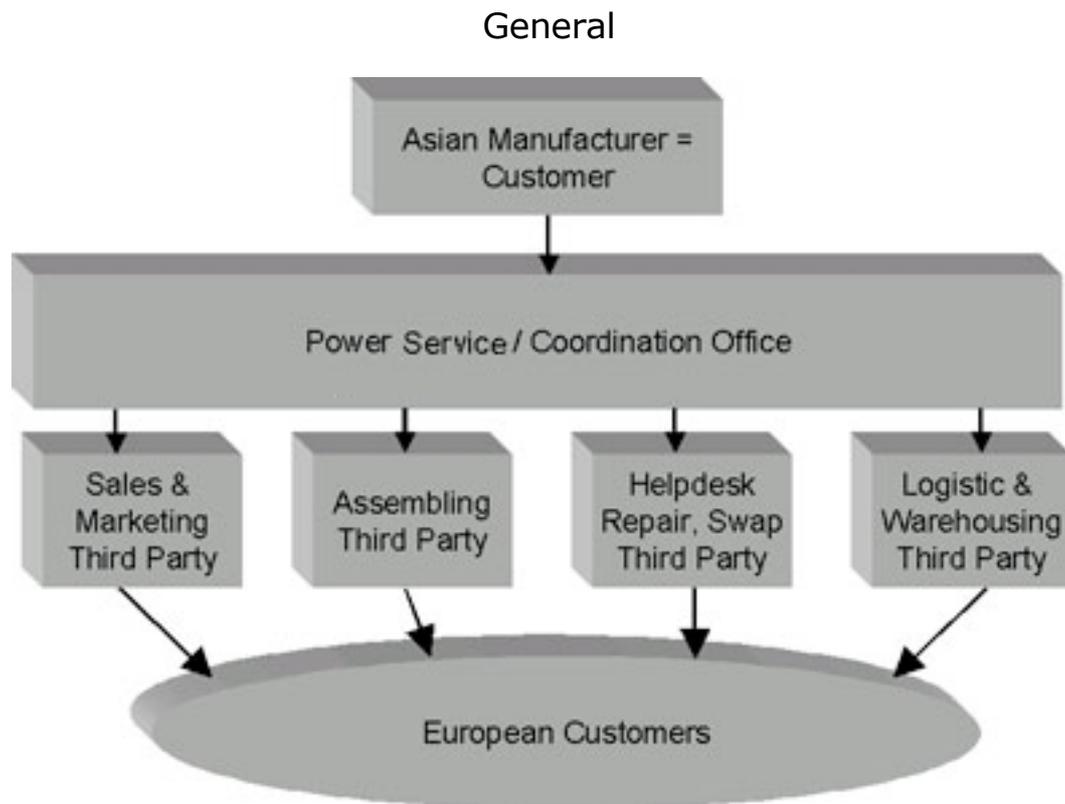

German Customers can purchase Hardware products for best conditions and Asian manufactures are able to launch their products for an extraordinary good price on the German Market. The outcome is a high sales quantity for both parties.

Power Service provides countenance during the whole purchase process to assure a convenient trade procedure for both parties.

The Power Service Concept

Power Service created a concept which enables direct trading between German Customers and Asian Hardware Manufactures. We open up direct sales contacts and take care of all trade related issues. For Asian Manufactures we offer Services such as Sales and Marketing, Assembling, Helpdesk, Repair and Swap Service as well as Logistic & Warehousing through third party.

Our German as well as our Asian Customers can participate in our well established distribution contacts. German Customers are able to purchase products directly with minimized risks.

The German Customer and the Asian Manufacture are contracted directly. Power Service negotiates the preliminary terms and conditions without obligations therefore both Parties are able to negotiate directly.

Power Service renders assistance to assure a convenient trade procedure. Therefore you are able to capture a new market with low investments and a minimized risk.

We deal with ICs, Capacitor, Resistor, LED, Diode, Transistor, Crystal, Varistor, Buzzer and Tact Switch. If you have any interest in these goods please feel free to [contact us](#).

Asian Customers

Asian Manufactures

If you are planning to expand into a new growing market you are facing challenges such as:

- Building up a Sales Team
- Establishing business relations
- Hiring manpower
- Running a subsidiary
- Legal and tax issues
- Finding reliable partners

Power Service can help you!

All activities will be invoiced directly to the Manufacturer.

German Customers

Due to our well established Asian Manufacture channels you are now able to trade directly with Asia. We take care of all purchase related issues therefore you can participate in our well established channels with a minimized risk. We open up a direct purchase channel for you thus both parties are contracted directly. We take care of all purchase related issues to guarantee a smooth purchase process. Our office in Hong Kong maintains the close relationship to our Asian Manufactures and supports a carefree purchase process for you. The trade process is very easy:

Our Team in Hong Kong searches the Asian Manufacture Market continuously to find the best Hardware Manufactures for you.

We offer a firm portfolio of hardware goods but we certainly enlarge our product range according to your wishes. If your purchase decision is made we enable a direct contact to the Asian Manufacture. You can negotiate the final terms of conditions directly with the Asian Manufacture. After the price is fixed you are able to conclude an agreement directly. If required Power Trading certainly supports you during the whole process.

For your convenience we certainly take care of every trade related issue. As you can see we enable convenient direct trade with minimum risk and excellent purchase prices!
